

# WAFFLE BAKERS

## Models SWB7R1E, SWB7R2E & SWB8SQE

### Features/Benefits:

- ★ Star's Waffle Bakers make mouth-watering waffles for breakfast, snacks or anytime you want delicious waffles.
- ★ Heavy-duty cast aluminum grids make 1/2" thick waffles producing an average of 20 waffles per hour, 40 waffles on double units.
- ★ Full floating hinge design made of heavy-duty stainless steel rises evenly for equal expansion for evenly cooked waffles every time.
- ★ Digital electronic timer from 0 to 9:59 and temperature controls from 250° to 425°F take the guesswork out of preparing waffles.
- ★ Metal sheathed tubular elements located on top and bottom grid provide even heat distribution.
- ★ Easy to read on/off switch with indicator light signals when waffles are ready.

### Applications:

From cafes and coffee shops to full service restaurants, Star has the perfect waffle baker for your food service application.

### Quality Construction:

Star's Waffle Bakers are built of polished stainless steel with heavy-duty cast aluminum grids and feature a heavy-duty aluminum hinge. Metal sheathed tubular elements in the top and bottom grids, electronic temperature control and a digital electronic timer with precision settings are standard. Models are provided with NEMA 5-15 plug for 120V and a NEMA 6-15 plug for 208V or 240V and CEE7-7 for 230V units. Canadian 120V models come with NEMA 5-20 plug.

### Warranty:

Waffle Bakers are covered by Star's one year parts and labor warranty.

### Typical Specifications

Waffle Bakers are built of polished stainless steel and heavy-duty cast aluminum grids, uniform top and bottom. The grids are either 7" or 8" diameter depending on model. Waffle Baker has a full floating hinge made of heavy-duty stainless steel rising evenly to allow for equal expansion of cooking waffle. The unit has metal sheathed tubular elements in both grids. A digital electronic timer and adjustable electronic temperature control, heavy-duty rocker switch with an indicator light and a stainless steel drip tray are standard. The Standard Waffle Baker models have a NEMA 5-15 plug (120V), a NEMA 6-15 plug (208V/240V) and a 5-20 plug (120V) for Canada. Units are listed by Underwriter's Laboratories. Printed U.S.A.
