■ STAINLESS STEEL CABINET CONSTRUCTION

The Turbo Air Super Deluxe model boasts a stainless steel interior and exterior (galvanized steel back & bottom). It guarantees the utmost in cleanliness and long product life. The Super Deluxe can add a touch of style to the most refined setting.

STURDY, CLEAN STAINLESS SHELVING

Shelves are the most important part of cleanliness as they come in direct contact with food. After a while, PVC coated wire shelves may peel, rust and lead to unsanitary conditions. Only the Turbo Air Super Deluxe series uniquely provides stainless shelving.

EXTRA DEEP CUTTING BOARD

Our cutting board is 191/4" deep and 1/2" thick to provide ample working space, and is made of easy to use and sanitize LDPE (Low Density Polyethylene). The new side rail cutting board bracket makes it easy to secure and remove the cutting board.

■ FRONT BREATHING, SIDE MOUNT COMPRESSOR

Through positioning the compressor to the side, the refrigerator can be serviced without being moved. By innovatively creating a front breathing feature, this model can provide high efficiency in narrow

- INSULATED PAN COVER
- High-Density Polyurethane Insulation

The entire cabinet structure and solid doors are foamed-in-place using high density, CFC free polyurethane insulation.

### **■ EFFICIENT REFRIGERATION SYSTEM**

Turbo Air's solid door refrigerators are designed with oversized and balanced (CFC Free R-134A or R-404A‡) refrigeration systems. These include efficient evaporators and condensers for faster cooling and greater efficiency.

### **■ EXCELLENT COOLING SYSTEM**

The powerful forced-air refrigeration system maintains the storage cabinet at a constant temperature. The evaporator fan and a newly designed stainless steel louver allow uniform distribution of cold air over the food pans and throughout the unit to keep food temperature within the NSF standard 7 requirements.

#### **ERGONOMICALLY DESIGNED DOORS**

Customers' fatigue fades away with easy grip handles and doors that open effortlessly. These features along with self-closing doors make this the ultimate choice in customer convenience. ABS sheet door liners resist water condensation with thermal efficiency.
