Specifications

Our griddle bodies, legs, splash guards, burners, under shelves, radiants, water pans, fasteners, pilot tubes, are all 304 series stainless steel for durability and ease of cleaning. Compared to units made of metal or 430 stainless steel – our units will never rust.

15,000 BTUH stainless steel burners are placed every 5.75" to ensure the most even heat pattern possible. These units heat up to cooking temperature within 6-10 minutes. Our stainless steel burners are warranted for 10 years!

Each MG model includes built-in tank holders that accommodate standard 20 lb. propane tanks. Each model is also available with a single gas connection and 25' quick disconnect hose for use with remote tanks. Each MG model is available as either LP or Natural Gas.

MG models include either one, or two, pro griddles on the unit. The griddle plate is made of 5/16" cold rolled steel with stainless steel splash guards and a removable stainless steel grease tray in the front of the unit.

Specification:

Gas griddle - must be constructed of 304 Stainless steel – including burners, and all fasteners. Burners to be 304 stainless steel and a minimum 15,000 BTUH per burner. Must have two 14" wheels and two total lock casters. Must ship fully assembled. Minimum of 10 year warranty on burners and minimum of 1 year warranty on complete unit. (MG) Unit to include tank holder(s) to accommodate 20 lb propane tank(s). Must have storage shelf under unit. Unit to include stainless steel water pan(s) with drain port(s). CGA/AGA/NSF certified. Must include griddle plate(s) with removable grease tray(s).
