

Edlund KSS-5050 Knife Sanitizing System

An Edlund exclusive! Our new KSS-5050 knife sanitizing system provides a complete method of liquid sanitizing, air drying, and storage of knives. The liquid sanitizing tank allows for submersion of the entire blade, thus ensuring complete sanitizing, and the built-in KR-50R knife rack provides the facility for air drying and safe storage of knives.

KSS-5050 Knife Sanitizing System

KSS-5050 SYSTEM FEATURES:

- NSF Certified
- Fully enclosed in stainless steel for increased sanitation
- Liquid sanitizing/Air drying
- Built in KR-50R knife rack
- Removable racks, inserts, and tank for easy cleaning
- The stainless steel splash plate provides a secure method for mounting to a wall stud
- KSS-5050: 4½" x 18" x 18"
- A simple yet complete system for incorporating knife sanitation and maintenance into a HACCP program
- Made in U.S.A.

Our new Knife Sanitizing System puts an end to all those off the wall methods.

KSR-5000 Sanitizing Knife Rack
