

STAR-MAX[®] HEAVY-DUTY CHEESEMELTERS

Models 524SBA and 536SBA

Features/Benefits:

- ★ Star-Max Heavy-Duty Cheesemelters are perfect for heating, melting, baking, finishing, warming, and reheating a variety of menu items.
- ★ Forced Convection keeps the unit cool to the touch and extends life of critical components. The forced convection increases productivity by circulating pre-heated air into the oven chamber.
- ★ Quartz infrared heaters provide faster, more consistent heating compared to traditional heating elements.
- ★ Six position pull out shelf to allow minimum/maximum height adjustment for products.
- ★ Energy efficient operation with power saver switch reduces electricity consumption by 75%.

Model 524SBA

Applications:

Star-Max Heavy Duty Cheesemelters are designed and engineered for high volume food service operations keeping value and efficiency in mind. The Heavy Duty Cheesemelter is versatile requiring minimal counter space and delivers consistent heating to heat, melt, bake, finish, warm and reheat a variety of products.

Quality Construction:

Star-Max Heavy Duty Cheesemelters are designed to stand up to the most rigorous foodservice demands. Stainless steel construction for long lasting durability. High performance quartz infrared heaters for superior heating performance and reliability. Furnished with 4" adjustable legs, 6' cord and a standard NEMA 6-30 plug for plug in installation in a grounded 208, or 240V outlet. Unit should be located 2" away from other units or wall to protect fan. Available in countertop and wall mount units.

Model 536SBA

Warranty:

Heavy Duty Cheesemelters are covered by Star's one-year parts and labor warranty.
